

# A Garden like Beethovens Music

## Crowdfunding for Beethoven's Garden

Cheerful and life-affirming, with plant arrangements that reveal themselves on different levels – this is what Beethoven's Garden is set to look like in future. The coordinated flowering times create a rhythm throughout the year. The planting is climate-resilient, ecologically valuable and insect-friendly.

The garden serves many important purposes: It provides a contrast to the hustle and bustle of the city centre, provides evaporation, helps regulate temperatures and improves the microclimate. It invites you to pause for a moment, offering inspiration and a chance to slow down – just like Beethoven's music.

**We need lots of supporters!**
